

Giulia Manno Lima

Senior Product Designer

mannogiu@gmail.com · +55 (91) 984349050 · [LinkedIn](#) · [Portfolio](#) · Florianópolis, SC, Brazil 

SUMMARY

I help B2B teams solve complex product challenges through research-driven design and systems thinking.

5 years designing end-to-end experiences for SaaS products, from discovery and IA to design systems and delivery. Built design foundations from scratch at early-stage companies and scaled design processes within cross-functional teams.

PROFESSIONAL EXPERIENCE

Spheric AI - Product Designer

Jun 2026 – present

- Owns the design vision for an AI-powered recruiting platform, driving product strategy and improvement based on direct user feedback
- Works directly with founders to shape product decisions, balancing user needs with business priorities

GT-BAITA - Design Founder

RNP's Research, Development and Innovation Program (2025-2026)

Jul 2025 – Present

- Designed the end-to-end product experience for LATAM's largest national academic federation (CAFe).
- Conducted user interviews with technical and non-technical stakeholders to define problem statements, map opportunity areas, and shape MVP scope using human-centered design principles. Contributed to agile sprint planning and delivery decisions beyond pure design work.
- Built and maintains the Figma design system, covering components, documentation, agent relations and handoff structure.

Fetchly Labs - Product Strategist

Jun 2025 – present

- Led product discovery and UX strategy for US-based startups, conducting stakeholder interviews and presenting design decisions directly to founders and CEOs.
- Conducted stakeholder interviews and alignment workshops to translate business goals into actionable design opportunities and problem statements.
- Partnered with design and delivery teams to ensure strategic and experiential consistency across the product lifecycle.

Norus - Product Designer

Mar 2024 – Jun 2025

- Unified three legacy ETRM products into a single B2B suite for big players in Brazil's free energy market, designing the consolidated user experience and information architecture.

- Built a design system on top of MUI, establishing component standards, documentation practices, and handoff workflows that reduced friction between design and engineering.
- Introduced design critique sessions and review processes to an engineering team with no design background, establishing a collaborative design culture and cross-functional workflows.

SiDi / Samsung - UX/UI Designer

Aug 2022 - Dec 2023 · Part-time

- Designed for an internal tool used by teams across Brazil, Germany, India, and Korea. Led semi-structured interviews with six regional leads to define content priorities and structure.
- Participated in requirements-gathering sessions with international stakeholders, translating complex needs into concrete design solutions.

EquipeDigital.com - Social Media & Webdesigner

May 2021 - Mar 2022 · Part-time

- Designed and prototyped responsive websites and landing pages; supported brand communication through digital visual assets.

EDUCATION

Post-Graduate Degree in User Experience Design

Mar 2026 - Present

Pontifícia Universidade Católica do Rio Grande do Sul (PUCRS)

Bachelor's Degree in Design

Mar 2019 - Apr 2024

Federal University of Santa Catarina (UFSC)

OTHER EXPERIENCES

Volunteer Mentor · PAQ (Prototipando a Quebrada)

May 2025 - Aug 2025

Design mentorship for teens and young adults in a local social inclusion program focused on access to technology.

Volunteer Mentor · Technovation Girls

Feb 2024 - May 2024

Mentored young women participating in a global tech competition, developing leadership and coaching skills in a cross-cultural environment.

Scientific Initiation Scholarship (PIBIC-CAPES) · UFSC

2021 - 2022

Research on accessibility best practices for graphic-experiential design.
